

# LEAD FOR IMPACT

## Lean Leadership in Healthcare

### Lead with Purpose. Drive Real Change.

An 8-week program to equip healthcare leaders with the skills, systems, and confidence to create lasting operational improvement.

*This isn't theory—it's hands-on leadership training designed for the complexity of real healthcare environments.*

#### Build Lean Leadership Habits

Learn how to show up as a systems-focused leader. We teach practical habits like daily huddles, visual boards, and leader rounding—so you're not just reacting, you're guiding.

#### Coach Problem Solvers, Not Just Tasks

Shift from managing tasks to developing thinkers. Gain coaching skills to help your team see problems clearly, take ownership, and create sustainable solutions through structured reflection and DMAIC.

#### Tools That Actually Work

Download and apply simple, high-impact tools every week. Includes plug-and-play templates for DMAIC, scorecards, standard work, and visual tracking—built for busy leaders and real-world challenges.

#### Learn While You Lead

No binders. No fluff. This is real-time leadership development. Delivered through Slack with weekly prompts, coaching, and practical resources—so you're learning and applying without leaving the floor.

#### Program Snapshot

8 Weekly Lessons

Slack-based discussion

1:1 access for coaching

Certificate upon Completion

Next Cohort starts August 4<sup>th</sup>, 2025

\$749 (Team Pricing Available)

**You don't need another leadership theory—you need a system that works.**
